

TRON BLACK

Tron is currently the President of the Ravencoin Foundation, an advisor to TZero, TUSC, Realio.fund, EquaStart, and the lead developer for Ravencoin (RVN) which is both a top crypto-currency and a leading crypto-asset platform.

Tron is a freedom advocate, crypto developer, entrepreneur, and founder of two startups that were sold to publicly traded companies. Tron holds a BS in Computer Science and a Master's of Business Administration.

Since early 2013, Tron has been working in the cryptocurrency space as a miner, developer, investor, and trader.

He was one of the first five employees of t0 (tZero), and helped issue the first publicly traded SEC acknowledged parallel crypto-equity for Overstock.com, and issued the world's first crypto bond offering.

He's written articles about Bitcoin, Monero, Dash, Financial Regulations, Security Tokens (STOs) and Ravencoin, and has been featured on many crypto-currency podcasts. He's the inventor of a number of patents in the crypto space and regularly gives talks on crypto-currency topics worldwide.
