

LISA DAVIS

My proudest accomplishment is that of being a mother of five amazing children. Three have grown successfully to adulthood, one is still at home in fourth grade, that I'm homeschooling, and, unfortunately, my daughter Mia passed at 7 years old. It's a long story, but a big part of who I am.

Fourteen years ago I founded a non-profit to serve kids in foster care which quickly became the largest volunteer effort in the state of Oklahoma. We partner with the community to make sure that no child in foster care is without a gift every Christmas. That is how I met three of my children.

I lived in the hospital with my youngest daughter during the first few months of her life until she received her gift of a new heart. She passed away after she developed cancer from the anti-rejection meds that she had to take to keep her body from attacking

her new heart. I was consumed with her care and am now struggling to find my "new normal" (this is the inspiration for the name of my channel). I started a 501c3 Non Profit charity to honor her, Team Mighty, as we called her Mighty Mia.

I'm happily married after finding my best friend and a true partner in life, Charles Davis. He was the GM of Bob Moore Subaru and had worked very hard to get his dream of accepting Crypto at the dealership to come to fruition! He's currently retired thanks to crypto and enjoying every minute of it!

After helping Bitcoin Ben with his first meetup on his Crypto World Tour, I was encouraged by @JohnKim77 to start a YouTube channel to share the stories of individuals' Crypto Journeys! The channel has quickly grown to cover many topics, everything from grief to politics to cryptos and more!
