

## ...IN MEMORY RAYMOND MIHAERE

Ray lived true to his Maori perspective of human interaction that allows for a spiritual view to be applied in finding business solutions that endure.

He had a zeal for connecting with people, positively. His knack for contextualizing the vision, made working side by side with Ray a delight.

Ray has always been an early adopter of emerging technology. He believed these were already designed from a prior realm, now manifested in our earth life.

Whether in a one-on-one situation or in a group, to see the lights in their eyes, this was where Ray got much satisfaction.

Ray now carries on his great work in the spirit world, the next phase of our divine existence.
