

TRUST THE FUTURE

Why us?

We believe blockchain and decentralized infrastructure as a service will lead to a future unstoppable and inclusive financial ecosystem. The technology we support is replacing inefficient legacy structures based on coercion with an emerging open financial system facilitating efficiency and permissionless innovation.

Staking Solutions

Capture Alpha provides highly-secure, non-custodial staking solutions. With expert engineers and dedicated support, Capture Alpha guarantees a successful staking experience.

Investments

Capture Alpha Ventures invests primarily in private equity of early to mid-stage blockchain projects focused on decentralized infrastructure, layer one smart contract platforms, layer two scaling solutions, non-fungible token ecosystems, and decentralized finance.

Infrastructure

Capture Alpha has engineered enterprise level, multi-provider, multi-region infrastructure that is best in class. We provide validator services and infrastructure to emerging and established blockchain technologies.
